Dear Mutaz

I would not normally do something like this, but In this case, you have permission to submit the assessment task by Sunday

Best wishes,
Shev MacNamara

Hi Shev,

I am not sure if you got this email, I would appreciate your feedback.

Thanks.
Mutaz

Subject: 37459 Multivariate Data Analysis - Assignment 1

hi Shev,

I feel that I need to reach out to you regarding this assignment before I make any decisions, I really would like to be able to continue with the subject this term, and I have a planned long service leave from work starting end of this week for three months, which I took to focus solely on studies.

However, since the start of the term, I haven't had the chance to spend much quality time studying for MDA or my other subjects, I managed to finish an assignment for one other subject on the weekend, and immediately started work on MDA.

Having said that I don't believe that I will be in a position to submit assignment one with confidence this Thursday. So I am writing to ask if it is at all possible to get an extension for this assignment? I really need a full weekend to be able to catchup on my studies. My concern is that this assignment is 25% of the whole subject, and if I don't do well now, then there is little chance that I can recover by end of the term.

regards,
mutaz
